

LINGESH S

CSE (AI & ML) STUDENT | PROBLEM SOLVER | INNOVATION & HACKATHON ENTHUSIAST

Motivated and curious CSE (AI & ML) student passionate about building technology-driven solutions for real-world problems. Strong foundation in programming, problem solving and AI tools with a drive to innovate, collaborate and create meaningful impact through technology.

EDUCATION

SRM TRP ENGINEERING COLLEGE

Tiruchirappalli, Tamil Nadu

B.E. Computer Science & Engineering
(Artificial Intelligence & Machine Learning)

- 2nd Year, 1st Semester
- Expected Graduation: 2029

ACADEMIC PERFORMANCE

- 12th Standard : 83%
- 10th Standard : 85.4%

TECHNICAL SKILLS

- Programming Languages : Java, C++
- Web Technologies : HTML, CSS
- AI / Tools : Prompt Engineering
- Core Strengths : Problem Solving, Debugging, Logical Thinking
- Platforms : LeetCode

LANGUAGES

- Tamil
- English

INNOVATION & PROBLEM-SOLVING

Gridlock Prevention 2.0

- Identified traffic congestion and inefficient signal management as a major urban challenge.
- Designed an intelligent traffic-management concept using traffic-density analysis and adaptive signal control.
- Incorporated emergency-vehicle prioritization and dynamic decision-making to reduce waiting time.
- Aim: To create smoother, safer and smarter mobility in high-density areas.

SmartPillCare

- Identified medication non-adherence as a critical issue for elderly and chronic patients.
- Conceptualized a smart medicine management system with scheduled dispensing, prescription verification and caregiver/medical monitoring.
- Integrated ideas like time-locked dispensing, usage logging, alerts and emergency assistance.
- Aim: To improve medication adherence and patient well-being through technology.

PROJECTS

Gridlock Prevention 2.0

Developed an intelligent traffic-management solution to prevent gridlock at busy intersections. Focused on traffic-density analysis, adaptive signal timing and emergency vehicle prioritization.

SmartPillCare

Proposed a smart healthcare solution for medication adherence. Designed the concept around automated scheduled dispensing, prescription verification, and real-time alerts for caregivers and patients.

ACHIEVEMENTS & PARTICIPATION

STRATA'26 – National Level Technical Symposium

Paper Presentation – Gridlock Prevention

National Mathematics Day – SRM TRP Engineering College

Certificate of Appreciation for exceptional presentation

Project: Traffic Management for Gridlock | 11 February 2026

Nimirthu Nill TN Hackathon

Participant – SmartPillCare
